

CogniNAAS - NLP As A Service

Build Practical AI Solutions using CogniNAAS and turn your organization into an AI powerhouse

CogniNAAS APIs

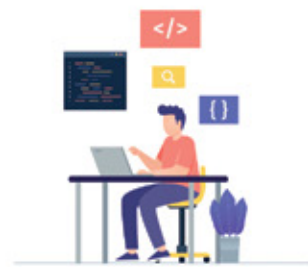

- ✧ Text Classification
- ✧ Intent mapping
- ✧ Speech Recognition
- ✧ Machine Translation
- ✧ Sentiment Analysis
- ✧ Abusive Language Detection
- ✧ Language Modeling
- ✧ Sentiment Analysis
- ✧ Emotion Understanding
- ✧ Named Entities Recognition
- ✧ Taxonomy Classification
- ✧ Semantic detection
- ✧ Caption & Summary Generation
- ✧ Question & Answering

Business Solutions that can be built using CogniNAAS APIs

- ✧ Automate Tasks
- ✧ Improve Customer Service
- ✧ Language Modelling
- ✧ Document Discovery & Search
- ✧ Survey and Feedback Analyser
- ✧ Social Media Moderation & Reply
- ✧ Gain 360 degree Customer Insights

CogniMLAAS - Machine Learning As A Service

Bring Your Own Data, Train, Deploy ML and scale at speed using CogniMLAAS

Enterprises can Code responses, categorize data and extract insights from text and videos using our Machine Learning Service. We provide powerful and flexible AI-driven content analysis solutions that bring the power of NLP and Computer Vision to your applications.

- ✧ Predictive Analytics
- ✧ Sales Forecast
- ✧ Personalized Recommendations and more

CogniAssistLite

Ensure Privacy using our CogniAssist Lite, Edge AI Feature

CogniAssistLite is a deep learning framework for on-device inference. Safeguard your customer data by deploying machine learning models on mobile and IOT endpoints.

- ✧ Image Classification
- ✧ Object Detection
- ✧ Pose Estimation
- ✧ Smart Reply
- ✧ Segmentation
- ✧ Style Transfer
- ✧ Text Classification
- ✧ Question and Answer
