

Our purpose is to **empower all to
make the most of our energy and resources,**
bridging progress and sustainability for all

At Schneider Electric, we call this **Life Is On**

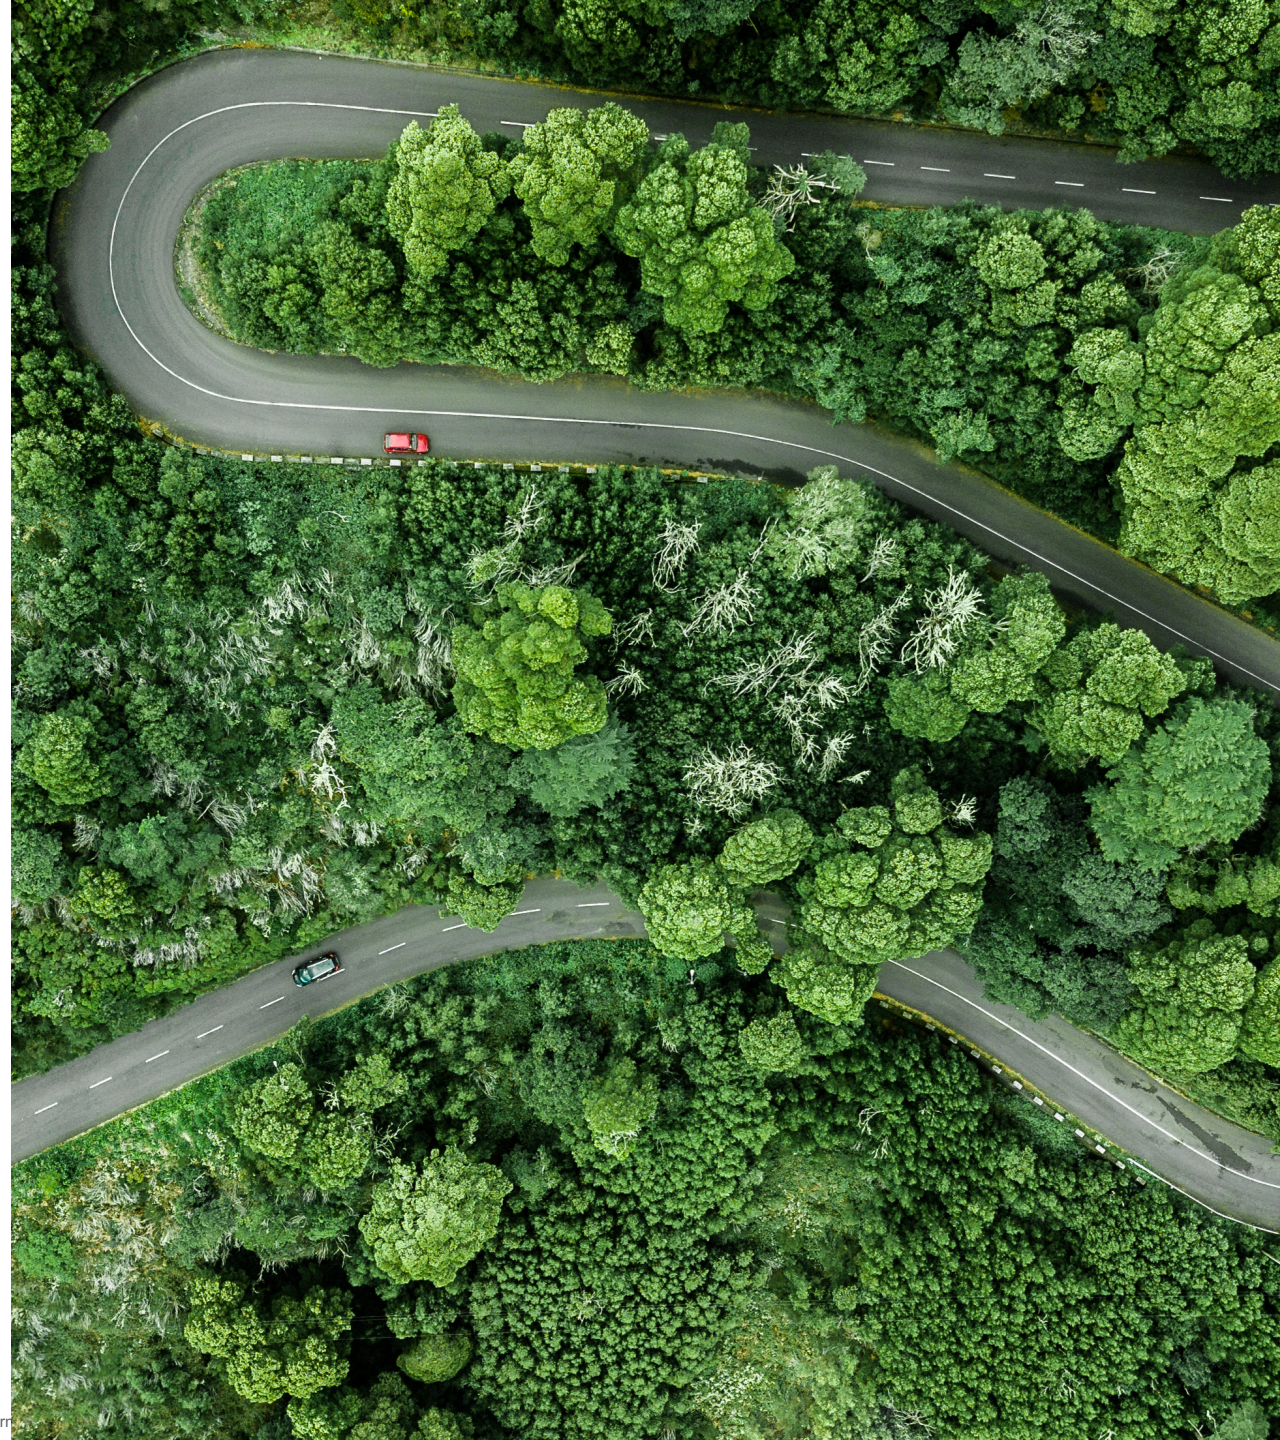

Life Is On

Schneider
Electric

Think about it

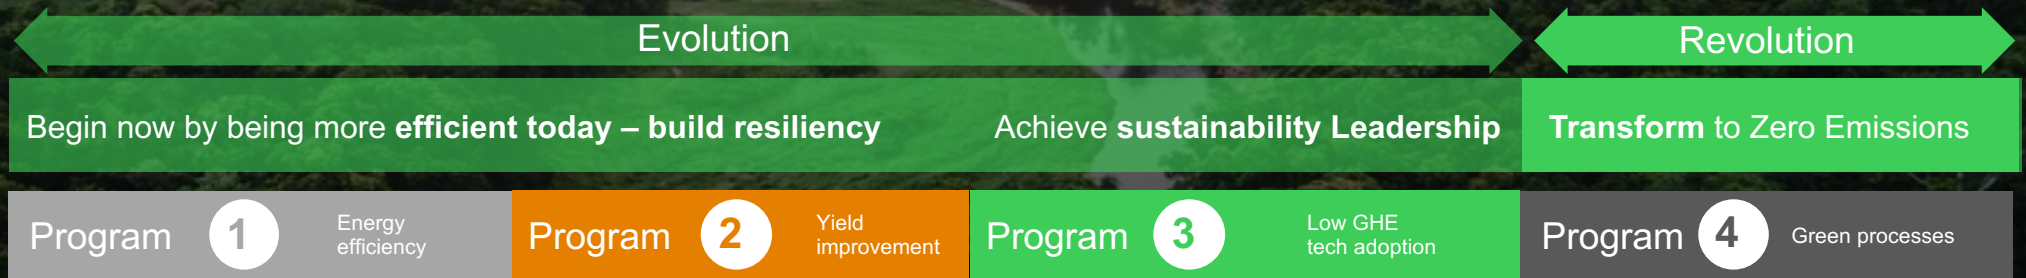

What if you could:

- Accelerate your **transition towards sustainable operations**?
- **Build** internal and value chain **resilience** by improving energy efficiency and maximizing your existing yield?
- Better **protect your business** from market fluctuations?
- Visualize your full value chain and **breakdown internal operational silo's**?
- Improved & more impactful **ESG reporting**?

A step-by-step approach to sustainable and resilient operations

Sustainability forces an organization to be agile and innovative with highly optimized **operational efficiency**, **smart energy consumption**, and almost **zero waste**

Life Is On

Our mission is to be **your digital partner** for **Sustainability and Efficiency**

Contribute to your progress, ensure social license to operate, and build a **sustainable** mining, minerals and metals business that is *responsible, efficient and profitable* with **digitally integrated automation, power and process** across a unified value chain
