## Content

## **Mission**

To be a leading company that, together with our clients, responsibly imagines and anticipates high value, innovative surfaces for the world of architecture and design.

## Vision

To be the global leader in the surfaces market via our brands, offering innovative architectural solutions that provide design, value and inspiration to our clients' lives.

SILESTONE®

## Quartz Surfaces

Silestone<sup>®</sup> offers total durability in the kitchen and bathroom or any other space where traffic and daily use is high. Enjoy the endless design possibilities.

The advantages of Silestone® are numerous. Silestone® is low maintenance and has a high resistance to stains and scratches, as well as a low liquid absorption rate. Silestone's nearly indestructible surface offers incredibly high resistance to stain, scorch and scratch. With a very low absorption index and a minimal number of joints, Silestone® is perfect for spaces where liquid is present. Silestone® offers peace of mind to be enjoyed over time, it is more than just a surface.

It is manufactured in more than 80 colours, 3 textures (polished, suede and volcano) and various formats, making it highly versatile. Colours range from muted tones that are generally associated with natural stone to vibrant colours that are not found in nature. Silestone's colour uniformity and consistency allows for an unlimited number of edge details including but not limited to: bevel, ogee, bullnose and waterfall. It is also malleable enough to be used in large pieces without requiring joints. Silestone® is the perfect choice for kitchen, bathroom, flooring, cladding and unlimited applications.

#### Highlighted

5 Districts, 5 ways of living worldwide. We invite you on an architectural and sensual journey to the heart of the city. LOFT will be your companion: a collection that reviews, in terms of design, the character and essence of five iconic places. Silestone's 5 new colours are inspired by concrete, a material capable of instilling emotions through its textures, finishes and shades, thus creating a new relationship between people and objects.

O 04/ NOLITA

O 04/ NOLITA

Introducing the new Silestone Loft Series with HybriQ+ Technology®

More Beauty. More Sustainable. Less Impact.

# Silestone<sup>®</sup> with HybriQ+Technology<sup>®</sup>

### 100% Renewable energy

We are committed to the use of circular energy and sustainable products. That is why we defend the use of renewable energies.

### 98% Recycled water

We use 98% of recycled water in our production process, thus reducing the ecological impact.

## Made with Recycled Glass & Minerals

A generation of innovative surfaces with a hybrid formula made with minerals and recycled glass.

HybriQ+® and HybriQ Technology® are registered trademarks owned by Cosentino SAU. HybriQ and HybriQ+® incorporate patented or patent-pending technologies

# SILESTONE®

Silestone<sup>®</sup> is available in slabs up to 325x159cm and in floor tiles of 30x30cm, 40x40cm, 60x60cm, 60x30cm and 60x40cm.

## silestone® Thicknesses

Silestone<sup>®</sup> slabs are sold in thicknesses of 1.2, 2 and 3cm. Different pieces can also be combined to create thicker edges.

\*Measurements given in centimetres

#### 🔊 Jumbo Size

Cosentino<sup>®</sup> is one of the few manufactures to offer quartz slabs in Jumbo format (maximum 325x 159cm). This format allows the creation of large surfaces with a minimum number of joints. It allows versatility of design and greater hygiene. It allows the manufacture of large islands in just one piece. This way, we optimize the use of the slab and reduce wastage.

### silestone® Textures

With the aim of being adapted to your style, Silestone offers you different textures to any of your chosen applications. Polish, Suede or Volcano are three possibilities that make your imagination fly and have your worktop, flooring or walling with the texture that you have always wanted.

Suede

The Suede or matt finish, recently improved by Silestone<sup>®</sup> offers a flat, non-rugged feel that provides a unique look and feel on account of its beauty and elegance.

## Volcano

Volcano is a rustic texture, rough to the touch while also being smooth. It is the result of research into how to create a rugged surface that is both attractive and pleasant to the touch for use in kitchens and bathrooms.

## \* Polished

All the colours of Silestone<sup>®</sup> and ECO Line Colour Series are available in this texture that is smooth to the touch as well as having a consistent, intense, and uniform colour.

#### SILESTONE®

Edges

Customised cutting and polishing processes can be used for Silestone<sup>®</sup>, creating edges of all types. This section details some of the most popular ones requested by our customers, but the combinations are limitless.

# SILESTONE®

Thanks to its remarkable characteristics, Silestone<sup>®</sup> is the ideal surface choice for unlimited applications.

## Kitchen Countertops

Silestone<sup>®</sup> is the only quartz surface with a 25 year warranty. It also offers a wide range of colours and textures to transform your kitchen into a unique space. Silestone<sup>®</sup> can be used in a variety of applications, including countertops, flooring, cladding and backsplashes or even furniture.

## Integrity Sinks

No pieces, no creases, no limits. Integrity wants your kitchen to be whole; a place where there is no start or finish. Integrity gives you the sensation of unity, of perfect integration with the rest of the elements of your worktop.

#### NEW Integrity Q

#### For Geometry lovers

Measuring 41 x 51 x 17.5 cm and with an almost square shape, the Q model from the Integrity by Silestone® kitchen sink range is the perfect choice for those who love geometry. The new form is even more attractive due to the small, tight curves in its corners.

A key aspect is its monolithic design: a single 3D element manufactured from one piece of Silestone<sup>®</sup>, which brings a feeling of unity and harmony to the other architectural elements.

Like all the Integrity sinks, the Q model guarantees better hygiene and cleanliness in one of the most important areas of the kitchen; since the sink is the place where most foods are washed before cooking.

#### Integrity ONE

#### In one single piece

ONE is the model which embodies Integrity's concept. A single kitchen sink in one piece. Measuring 41x51x15.5 cm, ONE, with its rounded shapes, is the perfect choice for those who love curved shapes.

#### Integrity DUE

#### Straighter shape

DUE, which is available in three sizes: DUE S: 37x34x15.5cm, ideal for double sinks, DUE L: 37x51x15.5cm, ideal for a main or only sink, and DUE XL: 43.5x67x21cm, with its larger size. Perfect for those who see style and beauty in the sobriety of the straight lines.

## Bathroom Countertops

Bathroom Collection by Cosentino is an unique concept in the architectural sector based on the use of single materiales that offer superior performance and remarkable beauty. Silestone<sup>®</sup> is a surface made with quartz available in more than 80 exclusive colours.

Silestone<sup>®</sup> possesses the ideal characteristics for bathroom countertops. With a low absorption level and virtually no joints, the bathroom surface will remain perfect after its daily use.

# Bathroom Cladding

Bathrooms are personal spaces where one should feel relaxed and refreshed. There's no reason these areas should be drab or feature less design!

Silestone<sup>®</sup> reinvents the traditional design of the bathroom space with custom-made large format panels. It can be installed vertically as wall cladding or horizontally as flooring. This customization eliminates joints and creates visual continuity.

# Bathroom Flooring

Bathrooms are a high traffic area and the durability and resistance of Silestone® reduces wear on bathroom floors. Its minimal maintenance requirements and low porosity make it the ideal product for rooms in which water and other personal hygiene products are used. Environments with damp conditions or changes in temperature require flooring that offers outstanding performance. Silestone® not only meets these requirements, it exceeds them with the added benefit of attractive design.

#### Bathroom Washbasins

Silestone<sup>®</sup> Sinks are built with a unique and innovative design for flexibility and elegance.

#### **DEKTON**®

## Ultracompact Surfaces

Dekton<sup>®</sup> is a sophisticated mixture of the prime materials used to manufacture glass, modern porcelain, and quartz surfaces, employing an exclusive technological process called Sinterized Particle Technology, which involves an accelerated version of the metamorphic changes that natural stone undergoes when exposed to high pressure and temperature over thousands of years.

Dekton<sup>®</sup> uses a 25,000-tonne press that turns the panel into a large-format highly resistant ultracompact surface.

Thanks to the manufacturing technology Dekton<sup>®</sup> employs, you can get colours and textures of varying features, including highly pure and chromatically homogeneous solids, materials with very natural veins and movements, or more daring ranges of colours for any table or furniture.

1. Helena 2. Rem 3. Eter 4. Khalo 5. Aeris 6.Laurent

### DEKTON® NewAdditions

Cosentino presents the new Dekton colors proposal for 2020.

From the mostdaring textures to everyday needs.

Discover textures of a great chromatic richness that increase the possibilities of the most cutting-edge projects. Helena, Khalo and Laurent form an ideal combination for the creation of luxury spaces where design takes centre stage.

> Aeris, Eter and Rem are more traditional colours that adapt to all types of projects. Boasting monochrome tradition with subtle veining and details that combine versatility with undeniable style.

# DEKTON<sup>®</sup> SL M

designed by COSENTINO

#### The thinnest X-Gloss surface. The widest possibilities.

Dekton X-Gloss is the most ultra-thin surface on the market. Simply revolutionary.

### NEW X-Gloss Finish

Introducing Dekton X-Gloss Slim: A large format surface with an ultra-thin 4-mm thickness that offers unlimited design options.

Its lightness and reduced thickness make it the most durable, highperformance surface for bathroom and kitchen cladding, as well as for all types of furniture (doors, drawers, etc.)

### <u>↓</u>

#### Dekton X-Gloss

Dekton Slim with our X-Gloss finish is the thinnest and most lightweight polished material available on the market. It boasts highly technical features making it very resistant, yet also lightweight, very easy to handle and install, and perfect for both inside and outside spaces.

## <u>।</u>

#### Mirror Effect

Cosentino's vast experience and expertise in treating and polishing natural stone over generations has enabled us to create a completely smooth surface with an almost entirely clear reflection.

#### Surface Damp-proof

It is highly resistant to stubborn stains, thanks to our X-Gloss nanotechnology that is unique to the market, and also boasts water-repellent properties.

#### Slim Thickness Huge Format & Performance

#### New

## Dekton Slim 4 mm

Bathroom Cladding

#### Maximum resistance, minimal joints

Ideal for bathrooms, Dekton<sup>®</sup> Slim offers cladding that is ultra-resistant to humidity and stains. A high-performing product that does not require any more maintenance beyond a damp cloth.

Its large format measuring 3,200 mm x 1,440 mm covers large surfaces, avoiding a large number of joints and in turn, dirt.

installation and transport.

Kitchen Cladding

## Reduced thickness, infinite possibilities

The ultra-thin Dekton<sup>®</sup> Slim surface, with a thickness of 4 mm, is ideal for the cladding of kitchen walls and cupboards, resulting in a harmonious blend with countertops of different thicknesses.

Dekton<sup>®</sup> Slim is scratch-, fire- and stain-resistant, just like its other formats.

Furniture Cladding

Dekton<sup>®</sup> Slim is the new, large format surface with an ultrathin 4-mm thickness that offers unlimited design options and incredible ease of

## Furniture with beautiful and highly resistant surfaces

Dekton<sup>®</sup> Slim creates furniture with unprecedented performance: tables that are resistant to everything and doors that neither scratch nor stain. The design possibilities are endless since it is cut to measure and easy to install.

### New

## Four reasons to choose Dekton Slim in your bathroom.

Maximum resistance against humidity with the minimal joints in the lightest Dekton<sup>®</sup> format.

#### LARGE FORMAT AND MINIMAL JOINTS

Its large format measuring 3,200 mm x 1,440 mm covers large surfaces, avoiding a large number of joints and in turn, dirt.

01

#### EASY INSTALLATION

Thanks to its light format with an array of possibilities, everything just got a lot simpler. Its reduced thickness means it can be cut quickly and adjustments can be made on-site with tools for ceramic tiles.

MAXIMUM RESISTANCE AGAINST HUMIDITY WITH THE MINIMAL JOINTS IN THE LIGHTEST DEKTON® FORMAT.

04

#### 03 LIMITLESS DESIGN

Dekton<sup>®</sup> Slim is very simple to install and can be cut with great ease. It is the ideal surface to personalise your furniture with innovative designs. **DEKTON**<sup>®</sup>

Benefits

Large format surface with the best market advantages. Discover them.

#### Its Resists Everything

Extremely resistant to scratching, virtually zero porosity and highly resistant to aggressive chemical products.

#### **Relentless in Heat**

Extreme resistance to high temperatures, cookware fresh off the hotplate and UV rays.

#### Unlimited Inspiration

Design your modern kitchen with eyecatching colours and unique textures. Large format for new compositional solutions.

#### Worktop to be Enjoyed

Easy maintenance, no traces of fingerprints or marks and maximum durability. Your Dekton worktop is guaranteed for 25 years.

#### **Infinite Possibilities**

Thanks to the size (up to 3200x1440mm)\* and the lightness of Dekton<sup>®</sup> (from 8 mm thick), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

## Applications

Dekton® offers multiple applications for both indoors and outdoors. Facades, countertops, heavily trafficed floors, etc...

Kitchen worktops

Bathroom worktops

Outdoor worktops

Outdoor Terrace Floor Coverings

Bathroom and Pool Floor Coverings

Indoor floors

Outdoor Terrace Floor Coverings

Exterior Walls

Stairs

Dekton<sup>®</sup> is a long-term product for those looking to turn their kitchen into a unique space.

Firstly, because it allows you to install in one piece meaning fewer joints and cuts. No limits, just the appeal of a completely uniform surface, which fits seamlessly into very different design styles.

Dekton<sup>®</sup> combines the qualities desired by the chef in all of us. It is a clean surface that is nice to touch and resistant to the daily grind that takes place in a kitchen over years of use. An ultra-sophisticated material for busy everyday life, capable of creating spaces that make the preparing of food, day after day, a pleasant experience that precedes the pleasure of sharing a meal with friends or family. It represents beauty and security with easy, fuss-free cleaning. The structural density of Dekton® is a breakthrough in engineering, but what really matters is that we do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth and presto, because the kitchen should be enjoyed with no restrictions, this is the Dekton® way of thinking.

## Outdoor Kitchen Covering

Cook with the Sky as a Roof

O Dekton Orix

Cooking is definitely a pleasurable experience and doing it outdoors, usually results in a small social event. Everyday celebrations that we can enjoy with company around a grill. Dekton<sup>®</sup>, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbecues. Dekton<sup>®</sup> provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils at high temperature... Dekton<sup>®</sup> will resist the demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, Dekton® simply needs an effortless, fuss-free clean so that it can showcase its best again.

## Bathroom Worktops and Wall Covering

The bathroom is the space in the home where hygiene and harmony need to express themselves in the best possible way. A peaceful environment devoted to personal care and hygiene - a space to relax and unwind free of any worries.

Dekton<sup>®</sup>, thanks to its low porosity, is completely waterproof against liquids.

Water glides smoothly over the surface without ever penetrating. This results in unaltered beauty and extremely easy cleaning.

Their textures and colours are an endless source of inspiration for areas that are based around water. We're talking about Dekton, it's possibilities are infinite.

## Façades

Dekton<sup>®</sup> is available in large format panels with minimum thickness, rewriting the rules of what is possible with Ultracompact Surfacing materials. Dekton<sup>®</sup> panels measure 320cm x 144cm with a thickness range of 4mm to 30mm. Aside from the advantage of its size capabilities, Dekton<sup>®</sup> is highly resilient and can be installed as part of ventilated rainscreen system, or, due to its remarkable durability and low moisture absorption, installed as a direct adhere façade, similar to dimensional stones like granite.

Dekton<sup>®</sup> is the architect's choice when unlimited surface and space designs are required, where colour and texture flow freely in all directions inside and out, expressing itself in all of its fullness and versatility.

#### High Performance All Purpose Façades Designing Without Limits

Large Format Panels: 320cm x 144cm Recommended façade thickness: 8mm. 12mm. and 20mm. Flexural strength. Excellent dimensional stability. Resistance to freezing and thawing. Unmatched Color stability.

O Dekton Aeris

## Flooring Solutions

Dekton's superior technical characteristics offer excellent resistance to scratches and abrasion and therefore can be used in high traffic areas. Dekton's unique resistance to UV rays allows for color stability and exceptional performance in outdoor spaces. Due to its ability to resist heat, frost and thawing, the product can be used outdoors in all weather conditions. This powerful combination allows for the ability to design without limits.

Dekton is a blend of raw materials, that undergo a unique technological process known as Particle

Sintering Technology, which is an accelerated version of the metamorphic changes that occur when natural stone is exposed to high pressure and temperature for thousands of years. The Dekton press is 25,000 tons, the largest press in the world, which makes the stone into an ultra-compact surface of an unprecedented size and thickness, ensuring extreme performance. This level of compaction contributes significantly to the low porosity of the material, making it a long lasting product that requires minimal maintenance.

## Aura Bookmatch

With Aura we have evolved from a single slab design to an endless symmetrical pattern. With 8 unique designs, we can reproduce matching compositions that allow continuous vein matching from slab to slab.

### THERE ARE 2 POSSIBLE WAYS TO ORDER AURA:

#### Regular Aura slabs.

You will receive a random pattern and the slabs are available in our warehouse.

#### Book and Vein matched Aura slabs.

These slabs are available on demand and will be inventoried at our HUB facilities. Vein and book matched materials will be charged at an additional 20% fee. Aura is matched vertically and horizontally; we have a system with letters and numbers so you can select the pattern that better fits your needs. Notice that you can choose different combinations depending on the amount of vein you like in your design. You may also choice from vertical or horizontal matching as well as traditional mirror bookmatching effect or vein matching.

#### SENSA BY COSENTINO®

## SenGuard Protection

SenGuard is a proprietary stone treatment that is used to protect SenSa granite from staining. SenGuard is not a sealer and bonds to the granite surface different than sealers.

The SenGuard treatment, unlike common sealers, allows the stone to breathe by anchoring to the stone lattice while preserving the stone's natural, beautiful colour for years to come.

- No sealing required.
- Enters stone lattice and chemically bonds, allowing stone to breathe.
- No special cleaners required. Common household cleaners do not affect the SenGuard protection.
- SenGuard remains bonded to stone.
- Propietary treatment applied in state-ofthe-art controlled environment facility.
